GE has already requested a meeting with you and Carol Browner for the following week. This way we will have time to air all issues or arguments that GE will raise with you and prepare you for it.

We were led to believe that GE is scheduling a meeting with Carol for September 23. I do not know how true it is.

Subject: GE Follow-up

Any thoughts on the HQ role in following up with GE? Judith tells me that a working meeting with the company (including Ann Klee) is scheduled for tomorrow in R2. My impression is that Judith does not envision any particular effort to reach a meeting of the minds beyond continuing technical discussions. If we want to negotiate a package of some sort, we'll need some oversight from HQ. This could come from Mathy but some continuing OA presence would probably help. What do you think?
